Ladder Restraint Brackets

Fixings

SPECIFICATION: BRC01 - LADDER RESTRAINT BRACKET

The System

Parapet type ladder restraint bracket is designed to provide safe/secure attachment point to the extension ladders while accessing a roof area.

Special Features:

- Unobtrusive
- Easy installation
- Extra deep design prevents ladder movement or slipping

Uses:

Provides a secure point onto which a ladder can be attached to prevent movement or slipping.

Can be installed onto concrete, masonry or metal parapet walls and like structures.

Technical Data

Material Used:

2mm 316 Stainless Steel

Finish:

Stainless Steel Polished smooth finish

Dimensions:

- 450mm x 105mm (at the base)
- 450mm x 200 (at the widest point)

Fixing Details:

The ladder restraint bracket can be fixed/installed to the roof structure, masonry, parapet wall and concrete by using appropriate fixings.

Maintenance:

No scheduled maintenance required.

Standards:

Complies with current Codes of Practice.
