SPECIFICATION: EP01 – GUTTER JUMPER

The System

Developed for protection of gutters and delicate building edges while abseiling over them, Gutter Jumper takes the headache out of this task with ease.

Special Features:

- Aluminium body construction with stainless steel components
- Rigorously tested by abseilers over 2- year period
- Tough rubber backing

Uses:

Gutter Jumper is designed for industrial rope access applications as a portable diversion over the building's gutters or other delicate edges. It must be anchored independently of the abseiling ropes to a suitable anchor point

For use by trained and certified personnel in accordance with AS/NZS 4488.2:1997 and manufacturer's instructions.

Technical Data
